

Dhruv Patel

 [LinkedIn](#) |  +91-9589482345 |  dhruvpatel13210@gmail.com |  [GitHub](#) | Ahmedabad, Gujarat, India

Skills

- **Programming Languages:** TypeScript, JavaScript (3+ years), Java, (Proficient in Advanced Algorithms, Data Structures and OOP Principles)
- **Frameworks & Technologies:** Payload CMS, Next.js, React JS, React Native, Recoil, Redux, MERN, Prisma, Scalable High-Performance Software development
- **Databases & Cloud:** AWS, Google Cloud, Cloudflare, Firebase, Supabase, MongoDB, PostgreSQL, MySQL, GraphQL
- **Development & Collaboration Tools:** Git/Github, Docker, Redis, n8n, Agile & Scrum, Project Flow, Version Control, CI/CD, Teamwork
- **Operating Systems & Environments:** macOS, Linux, Windows

Experience

Software Development Engineer Prime Apps Ahmedabad, India April 2024 – Current

- Worked on [Wanderluck.com](#), Developed Efficient **Algorithms for Betting application**, *handling spin draws, mystery box game logic*, and *performance-critical flows, ensuring correctness, scalability, and low-latency execution for DB and APIs*.
- Designed and implemented an **AI-driven automation workflow** using **n8n**: integrated Slack alerts, RAG, error logs, and feature prompts with **Claude Code** on a dedicated server to *automatically analyze issues, generate fixes, create Git branches, and run in a self-healing loop (agent with ralph loop)*—significantly reducing manual debugging and turnaround time.
- Worked on [Sportsgrid.com](#) (**Web + Mobile**), contributing to **SSR optimization**, *site ranking improvements*, and production stability, resolved critical crashes in React Native apps (Android & iOS), implemented push notifications, and refactored legacy code with clean, review-friendly PRs.

Independent Software Development Engineer Oct 2024 – Current

- Developed [UtsavInternational.com](#), a **production-grade business website** with *SEO optimization, responsive UI, and cloud deployment*.
- Built [JD Lights & Automation](#) a **lights and automation business website for** (live on Vercel), implementing scalable frontend architecture and handling ongoing client updates and optimizations.
- Developing a **full-stack e-commerce platform** (in progress) with Razorpay payment integration, product management, and order workflows and Delivery Dashboard; deployed preview on [Vercel](#).

Software Engineering & DSA Instructor (TA Intern) Apna College Delhi, India June 2024 – Oct 2024

- Conducted 50+ live DSA sessions mentoring 200+ students, strengthening problem-solving and interview readiness.
- Debugged and optimized multiple student projects, improving runtime efficiency (~10%) and deployment stability.
- Guided students on advanced algorithms and CI/CD practices, resulting in measurable improvement in assessments and technical interviews.

Projects

Weave Weave Technologies & Frameworks: **Node.js, Express, React, WebContainers, Gemini AI**

- Developed **Weave - AI Web App Generator**, a *dynamic web platform that generates complete, deployable web applications based on user prompts, delivering full folder structure, code files, live preview, and an in-browser code editor*.
- Leveraged **WebContainer for real-time code execution** within the browser and Integrated LLM workflows to convert user input into structured, production-ready codebases

CheckMate CheckMate Technologies & Frameworks: **WebRTC, Chess.js, WebSockets, React, Node.js**

- Developed **Checkmate - Real-Time Chess + Video Platform**
- Implemented using **raw WebRTC** for seamless **peer-to-peer video streaming** and **WebSockets** for *ultra-low latency game state synchronization, supporting thousands of concurrent users*.

Education

Bachelor of Technology (BTech) Silver Oak University Graduate 2024

- Silver Oak University, Ahmedabad, Gujarat | **Computer Science Engineering** | CGPA : 9.28
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming System (OOPs), Software Engineering Principles, Database Management Systems (DBMS), Operating System, Computer Networks and Engineering Mathematics.
- **Honors:** Top 5% of the class, achieving a CGPA of 9.28

Achievements & Certifications

- Solved **450+ data structure and algorithmic problems** on [Leetcode](#) and [Hackerrank](#).
- Achieved **25th Rank in Institute** on [GeeksforGeeks](#).
